a) Please remind us of the aims of the grant and how this has been fulfilled.

To repair and extend the wall at the Secret Garden to provide an attractive entrance to the garden.  
We employed a bricklayer ( following obtaining 3 quotes) and he has completed the job.

b) Have all the aims been met? If not, what part of the project failed to deliver (to include activity, materials or supplier) what was expected?

The aims have all been met

c) Please include your end of project evaluation. Is this what you hoped for? Please feel free to include pictures of your event.

We are genuinely delighted with the standard of work and with the final result which has surpassed our expectations. The entrance to the Secret Garden now looks more welcoming and more 'complete'.

d) Please evidence the number of people that the project / event has reached. This would include planning, participants, project leaders etc.

The work will be seen by everyone who visits the garden and by the car and bus drivers and their passengers as they pass the site.

e) Please include any feedback that you may have been given, publicity that you may have acquired or produced.

f) Please attach a final set of financial accounts for the project that include proof of expenditure, such as receipts and invoices.
